

Dear Quorum Leaders and Members:

In this notebook you have been provided three recent revelations for your prayerful consideration. Below are numerous instructions extracted from these revelations, applying to various offices (including member/Saint). *Of note, there are even more instruction items within the revelations themselves.*

Please review the “Go and Do” Instructions listed below and prepare to answer the questions listed. Your response to these will be shared with the Conference in a brief quorum report during our last business meeting on Saturday.

We have planned a total of two hours for quorum deliberation and discussion on Thursday and Friday, allowing each quorum an opportunity to reflect on covenants we will make in response to these revelations. Reports to the business meeting should be short, concise and include measurable responsibilities. We have been given clear guidelines in these revelations and it is therefore incumbent that we “Go and Do” as good stewards in response to this light from heaven. My hope and prayer is that through our incarnation of these divine words of counsel, we will indeed enjoy the fruits and blessings what God has in store for those willing to covenant with him.

Please be prepared to follow up on your action steps as I will be calling upon each of the quorum leaders every three months to support and check the status of these commitments/covenants.

In Christ, Joel Loving
